

## PRESS RELEASE

For Immediate Release

### A BRAND-NEW FLOORING FOR 4-YEAR OLD MALIK TRÉPANIER

Acton Vale, Quebec (May 7, 2018) – Beaulieu Canada has recently been moved by Malik Trépanier's story. At only 4 years old, Malik suffers from type 1 of spinal muscular atrophy, the most severe type of a condition that attacks the nerves of the voluntary muscles, affecting even breathing and swallowing. Diagnosed at 4 months of age, he was already unable to support his hand and lift his arms and legs, and the doctors gave him no more than 2 years of life expectancy. With heroic courage, Malik is defeating the odds by making constant progress.

Beaulieu Canada was approached by Les Bons Amis, a foundation that supports 3 to 4 projects a year. One of this year's project was to support the Trépanier's move to a more adapted home. The basement of the house needed to be revamped to facilitate Malik's moves. Beaulieu Canada was pleased to help by giving a brand-new very resistant laminate flooring of the Explorer collection, so the family could fully enjoy this space. "Giving back is a very important value at Beaulieu Canada" said Sophie-Tanya Lupien, Vice-President of Marketing. "Any opportunity we have to help others is one that we want to seize! We humbly hope to have made a small difference in the family's life."

To learn more about Malik's condition, or to make a donation, visit [maliktrepanier.wix.com/malik-trepanier](http://maliktrepanier.wix.com/malik-trepanier) or Facebook Page «Tous ensemble pour Malik Trépanier».
